SPRAY

Brakes cleaner:

This product is perfect for professional use and also for “do-it-yourself” use: it cleans, degreases and lubricates brakes and clutches. This product is perfect for any mechanical component that needs to be degreased. Rinsing is not required and it acts rapidly. It’s particularly effective on brakes, clutches and other mechanical components that require to be degreased without rinsing. It rapidly dissolves oil, grease and other dirty substances.

Available in 2 formats:

- A472 – 600 ml spray can
- A462 – 500 ml spray can

Technical Specifications:

Barcode	EAN: 8034108890425
Quantity	600 ml
Box / Case	12 Pz.
Aspect	Tin-Plate can containing under pressure fluid
Color	Transparent
Odour	Characteristic of solvent
Relative density	at 20°C 0,62 ÷ 0,66 g/ml
Flash point	Und. 0° C extremely flammable
Pressure at 20°C	6/7 bar
Melting point	-20°C (liquid base)
Boiling point	48°C (liquid base)
Ignition point	405°C (liquid base)
