SPRAY

Engine cleaner:

This product has a high solvent power that is specially designed to clean the outside of the engine motor and for washing mechanical parts of vehicles, motorcycles and scooters. It dissolves grease and oils, removes residue of asphalt, and removes tar from machinery and other equipment. This spray also has a mechanical effect of descaling. How to use: spray the product, leave to act a few minutes, re-wash with strong stream of water or remove the dust with a cloth. In case of tough spots, repeat the steps.

Available in one format:

- A473 – 400 ml spray can

Technical Specifications:

Quantity	400 ml
Confection	12 Pz.
Aspect	Tin-plate can containing under pressure fluid
Color	Trasparent
Odour	Typical of solvent
Relative density	at 20°C 0,78 ÷ 0,82 g/ml
Flash point	Und. 0° C extremely flammable
Pressure at 20°C	6/7 bar
