

## **Silicone based Anti-Adhesive:**

It is a high-yield anti-adhesive detaching spray for the molding and stripping of thermoplastic, thermosetting materials, and rubber. Formulated for moistening threads of dies that come into contact with self-adhesive materials. It can be water-repellent, anti-static, and lubricant on a wide range of materials. Can also be used for the polishing and protection of plastic parts and the protection of gaskets from cracking. Excellent sliding agent for paper, fabric and polyethylene.

## Available in one format:

- I250 – 400 ml spray can

## Technical Specifications:

Aspect	Tin-Plate can containing under pressure fluid
Color	Dark yellow
Odour	Characteristic of solvent
Relative density	at 20°C 0,54 ÷ 0,58 g/ml
Flash point	Und. 0° C extremely flammable
Pressure at 20°C	4/6 bar
Viscosity	350 - 400 mm2/s a 25°C
Auto-ignition temp.	>400°C (on dry residue)
gas pressure	<0.01 kPa a 20°C
Freezing point	ca -50°C
Hydrosolubility	Insoluble in water
