Your Factory of Aerosol

SPRAY

Vaseline Oil:

Pure Vaseline oil particularly used for applications where periodic maintenance, cleaning, and lubrication are necessary. It is recommended for the lubrication of delicate mechanisms. Due to its special formulation it protects and lasts for long periods of time.

Available in three formats:

- OL101 – 400 ml spray can
- OL100 - 200 ml spray can
- OL110 – 5 lt tank

Technical Specifications:

Aspect	Tin-Plate can containing under pressure fluid
Color	Transparent
Odour	Odourless
Relative density	at 20°C 0,53 ÷ 0,57 g/ml
Flash point	Und. 0° C extremely flammable
Pressure at 20°C	4/6 bar
Viscosity at 20°C	(ASTM D 445) 31 cPs
Flash point	ASTM D 92) +184°C (dry residual)
Solubility	Insoluble in water
Pour point	(ASTM D 97) -9°C
distribution coefficient	>3,5
