Your Factory of Aerosol

SPRAY

Wood stain:

Wood stain is formulated for deep penetration and long lasting protection. Made for interiors and exteriors, it is suitable for protection of wooden products such as fixtures, matchboards, boats, garden furniture, and more. It effectively protects the wood from aggressive atmospheric conditions such as sun and water. It guarantees easy maintenance, even after long periods of time from the original application. It can be painted over or left as clean sheen allowing the natural grains and knots of the wood to be more visible and accentuated.

Available in one format:

- V407 – 400 ml spray can

AVAILABLE IN 6 DIFFERENT COLORS!!

Technical Specifications:

Quantity	400 ml
Box / Case	6 Pcs
Aspect	Tin-Plate can containing under pressure fluid
Chemical nature	Alkyd resin
Colour	Transparent, White, Dark Walnut, Light Walnut, Teak, Oak.
Odour	Characteristic
Relative Density	at 20°C 0,71 ± 0,75 g/ml
Flash point	Und. 0° C extremely flammable
